

## Welcome to the digital Aachen Colloquium Sustainable Mobility 2020!

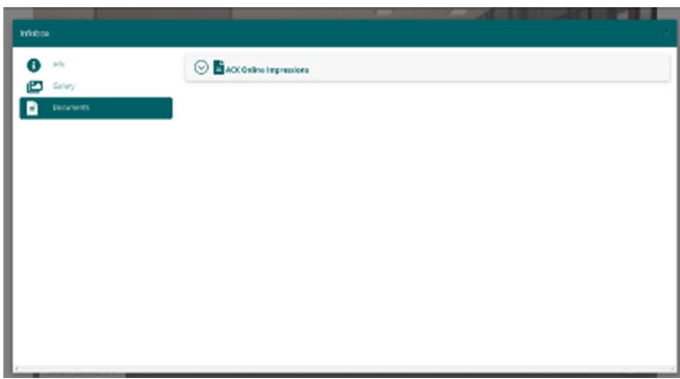

For the first time, the Aachen Colloquium Sustainable Mobility will take place as a digital conference from October 5th to 7th, 2020. Although we are still busy creating and designing the digital conference platform, we would like to give you first insights into the possibilities to participate as an exhibitor in the digital exhibition. Please note that the final design will differ. We are looking forward to your booking!

### Overview

*Exhibition Hall:* All visitors of the digital Aachen Colloquium Sustainable Mobility will have access to the digital technical exhibition.
