

Aurobay

Powering sustainable mobility. And beyond.

Aurobay at a glance

- World-class powertrain solutions, services and contract manufacturing
- Formed from the merger of Volvo Cars' powertrain business with Geely
- Manufacturing, R&D and sales capabilities
- 2,900 people worldwide

Aurobay develops and manufactures world-class powertrain solutions for a global market.

A pioneering venture that brings together Volvo Cars' powertrain business with Geely, Aurobay is the brand name for this new powertrain business. Our 2,900 employees in Sweden and China work across engine production, R&D and sales. With a heritage of more than 100 years of continuous powertrain innovation, we are re-imagining motion for a brighter future – developing new technologies and pushing the environmental impact towards zero.
