Developing Solutions Together

The Aachen Colloquium Sustainable Mobility celebrates its 30th anniversary this year. Under the scientific management of Prof. Dr. techn. Franz Pischinger and Prof. Dr.-Ing. Jürgen Helling, the first “Aachen Colloquium Automobile and Engine Technology” took place in 1987. The underlying idea of treating the two topics of engine and automobile together and searching for solutions in joint efforts generated great enthusiasm among the international participants.

Today, more than 30 years later, we are expanding the basic idea of interdisciplinary collaboration, as it has proven to be right and important. At this year’s Aachen Colloquium, we are not only looking at the automobile and its engine, but at the topic of mobility as a whole, with findings from research and industry. An important focus is the development of sustainable solutions for efficient, safe and environmentally friendly mobility of the future.

The 30th Aachen Colloquium Sustainable Mobility

This year, you can look forward again to 100 specialist presentations from renowned companies and institutes. In our detailed program overview you will find innovative topics as mobility and vehicle concepts of tomorrow, automated and connected driving, fuel cells, battery systems and electric drive units. This is rounded off by the red-hot subject of hydrogen, zero-impact emissions, life cycle analyses and strategy considerations in the automotive industry.

The plenary lectures by selected experts will be a special highlight of the event. Markus Duesmann, chairman of the board of AUDI AG, will speak on the topic of electromobility as an opportunity and driver for growth. Dr.-Ing. Stefan Hartung, member of the board of management of Robert Bosch GmbH, will give an outlook on the mobility of the future in his presentation. Prof. Dr. Ralf G. Herrtwich, Senior Director of NVIDIA, will deal with the intelligence of cars and Dr. Ahn, Senior Vice President, will offer an insight into the future vision of electric vehicles at Hyundai Mobis.

Outside of the lecture halls, you can expect numerous well-known companies who will personally present their innovations and answer your questions. As in each year, the Aachen Colloquium offers various opportunities for discussion and direct exchange with experts from all over the world. For the 30th anniversary, you can also look forward to other interesting program items.

We look forward to your participation in the anniversary event 30th Aachen Colloquium Sustainable Mobility!
The demands placed on mobility and sustainability have grown exponentially. There can be little doubt that the automotive industry as a whole is entering a new era. In times of transition, it is good to know that reliability and innovation are available from a single source. As a leading technology group with a global reach, we offer pioneering solutions for any type of drive concept. Alongside steadily evolving lightweighting expertise that can be applied to any drive system, we supply components for lithium-ion batteries. Through our new joint venture EKPO Fuel Cell Technologies, we offer high-performance fuel cell stacks and components. In doing so, we are helping to shape the future of mobility.

**Conference Agenda**

**Overview**

**Presentations**

**Information**
Markus Duesmann was born on June 23, 1969 in Heek, North Rhine-Westphalia. In 1991, he completed his studies of mechanical engineering at Steinfurt University of Applied Sciences with a degree in engineering. He began his career in 1992 as a design engineer for a V12 series-production engine at Mercedes-Benz in Stuttgart. In 1995, he moved to the development service provider FEV GmbH in Aachen, where he held various positions, the last of which was head of the engine mechanics division.

In 2004, he took over the position of main department manager for new diesel engines at DaimlerChrysler AG in Stuttgart, and in 2005 became head of Formula 1 development at Mercedes-Benz in Brixworth in the United Kingdom.

In 2007, Markus Duesmann moved to BMW AG as head of Formula 1 powertrain. After holding several responsible positions at that company, he was Board of Management Member for Purchasing and Supplier Network at BMW AG from October 2016 until July 2018.

The Supervisory Board of AUDI AG appointed Markus Duesmann as Chairman of the Board of Management of AUDI AG effective April 1, 2020. Since then, he has also had Board of Management responsibility for Volkswagen Group Research and Development. Additionally he is entrusted with responsibility for the China business of the AUDI AG and with Board of Management responsibility for Product Lines at AUDI AG.

Dr. Stefan Hartung has been a member of the board of management of Robert Bosch GmbH since January 2013. Since January 2019, he has been chairman of the Mobility Solutions business sector, and responsible for the Powertrain Solutions and Electrical Drives divisions. Prior to this, he was responsible for the Energy and Building Technology as well as the Industrial Technology business sectors, in addition to the Bosch Connected Industry business unit.

Born in Dortmund in 1966, Stefan Hartung is married and has two children. He studied mechanical engineering, specializing in manufacturing technology, at RWTH Aachen, where he also submitted his PhD on quality management methods in 1993.

He joined Bosch und Siemens Hausgeräte GmbH in Munich in 2004. Before that, he worked for the Fraunhofer Society and the management consultants McKinsey & Company in Düsseldorf.
Overview

Presentations

Information

Prof. Dr. Ralf G. Herrtwich
Senior Director Automotive Software
NVIDIA, Berlin

Ralf G. Herrtwich runs automotive software development for NVIDIA in Europe. He currently focusses on artificial intelligence for autonomous vehicles and new automotive computing architectures. Past assignments in Dr. Herrtwich’s career include managing the Automotive and Services Business Units of HERE Technologies as well as developing self-driving vehicles for Mercedes-Benz. In 2013, his team made an S-Class re-enact the world’s first overland drive, covering the historic 65-miles Bertha Benz Route autonomously in regular traffic.

A computer scientist by education, Dr. Herrtwich started his career in academia at TU Berlin and UC Berkeley. He then held management positions with IBM and several telecommunication start-ups before joining Daimler in 1998 to manage its Advanced Engineering Centers on Telematics & Infotainment and, later, Driver Assistance & Chassis Systems.

Since 2009, he also is honorary professor for vehicle information technology at the Technical University of Berlin. In recognition of his contributions to computing innovations in the car industry, he was named Fellow of the German Computer Science Society in 2019.

Dr. Byung-Ki Ahn
Senior Vice President der Electric Powertrain BU,
R&D Division Hyundai MOBIS, Korea

Dr. Byung-Ki Ahn, born in 1963, studied Mechanical Engineering at the Seoul National University in Korea. In 1991, Dr. Ahn moved to the USA, where he obtained his doctoral degree at Virginia Tech, followed by occupations as Senior Research Scientist at the Pacific Northwest Nat'l Lab and as Senior Engineer at UTC Fuel Cells.

In 2004, he returned to Korea to begin his career at Hyundai MOBIS as Chief Researcher. From 2006 until 2017, Dr. Ahn directed the Fuel Cell and Eco-friendly vehicle Performance Development groups at Hyundai Motor, before returning to Hyundai MOBIS.

Currently, Dr. Ahn fulfils the position as Senior Vice President of the Electric Powertrain BU, R&D Division at Hyundai MOBIS in Korea.
Our Vision for a Digital Future!

Opening Plenary Session at the Europa Hall

08:30  Welcome
Univ.-Prof. Dr. rer. nat. Dr. h.c. mult. Ulrich Rüdiger
Rector, RWTH Aachen University

08:40  Introduction to the 30th Aachen Colloquium
Univ.-Prof. Dr.-Ing. Stefan Pischinger
Director, VKA, RWTH Aachen University
Univ.-Prof. Dr.-Ing. Lutz Eckstein
Director, ika, RWTH Aachen University

09:00  Electromobility – Opportunity and Driver for Growth
Dipl.-Ing. Markus Duesmann
Chairman of the Board of Management and Board of Management Member for Product Lines at AUDI AG

09:20  Future of Mobility
Dr.-Ing. Stefan Hartung
Member of the Board of Management, Robert Bosch GmbH

09:40  Plenary Discussion

#### K1 Aachen
- **Steer-by-Wire – Experience, Potentials and Solutions for Future Mobility**
  - H. Hugle – Schaeffler Paravan Technologie GmbH & Co. KG
  - T. Sandmann, D. Wegener – ifa GmbH

### Battery Cooling

#### Zero Impact Pollutant Emissions and 50 % Real-World Efficiency – The Future of CI Powertrains
- C. Menne – FEV Europe GmbH
- T. Körfer, D. van der Put, M. Mütter, H. Busch – FEV Group GmbH

#### Heavy Duty Emission Concepts

#### Mobility & Vehicle Concepts I

### Chassis Systems

#### Modelling of Exhaust Emissions from a PHEV Hybrid Vehicle
- S. Loussaief, M. Groisil – Siemens Industry Software

#### Innovative Battery Cooling System Using Immersion Cooling for Mainstream BEV
- C. Rouaud – RICARDO
- M. Lashbrook – M&I Materials Ltd.
- S. Charmer – WMG, University of Warwick

#### Ultra-Low NOx Emissions with Close-Coupled Emission Control System on a Heavy-duty Truck Application
- P. Mendoza, J. Demuynck, D. Bosteels – AECC aisl
- T. Wilkes, L. Robb, P. Recker – FEV Europe GmbH

#### Participatory Development of a Mobility Station for All Ages – A Real-World-Condition Laboratory Approach
- P. Ziegert, T. Teich, T. Neumann, D. Kretz – Westsächsische Hochschule Zwickau
- E. Höhne, S. Leonhardt – Stadt Zwickau

#### Impact of Tire Modelling on Vehicle Soiling
- D. Mutlayashki, T. Linden – 3DS

#### Modular and Scalable System Integration for Electric Vehicles: The Integrated Axle Module (IAM) by BENTELER and Bosch
- M. Kollmeier, U. Hammelmaier – BENTELER Automobiltechnik GmbH
- U. Schulmeister – Robert Bosch GmbH
Technical Presentations Program Wednesday, October 6th, 2021 Session 1

**Hybrid & Range-Extender-Concepts**

**Europa**
- The Fourth Generation Plug-In Hybrids at Mercedes-Benz. An Important Milestone on the Way to Transformation
  - M. Klöpfer – Mercedes-Benz AG

**Berlin**
- Prediction and Simulation of Cold Start Emission Behavior using eFuels
  - J. Villforth, A. C. Kulzer, H.-P. Deeg
  - Dr. Ing. h.c. F. Porsche AG
  - M. Bargende – Universität Stuttgart

**Lissabon**
- H2-deNOx: low-temperature NOx reduction by H2 in diesel passenger car exhaust
  - S. Kureti, E. Eßer – TU Freiberg
  - P. Elts, L. Heckemüller, A. Todt
  - TU Braunschweig
  - T. Morawietz, Schwan Hosseiny – DLR Stuttgart

**Brüssel**

  - T. Morawietz, Schwan Hosseiny – DLR Stuttgart

**Brüssel**
- Design Aspects of Electric Traction Drives using the Example of an 800 V System
  - C. Carstensen, C. Neuhaus, M. Heger
  - paragon electrodrive GmbH

**K1 Aachen**
- Display of Range Changes in Electric Trucks: HMI Concept Evaluation in a Virtual Reality Simulator Study
  - A.-L. Köhler
  - Bundesanstalt für Straßenwesen (BAST)

**HMI & User Experience**

**Europa**
- Reports from FVV-Projects

**Berlin**
- Prediction and Simulation of Cold Start Emission Behavior using eFuels
  - J. Villforth, A. C. Kulzer, H.-P. Deeg
  - Dr. Ing. h.c. F. Porsche AG
  - M. Bargende – Universität Stuttgart

**Lissabon**
- H2-deNOx: low-temperature NOx reduction by H2 in diesel passenger car exhaust
  - S. Kureti, E. Eßer – TU Freiberg
  - P. Elts, L. Heckemüller, A. Todt
  - TU Braunschweig
  - T. Morawietz, Schwan Hosseiny – DLR Stuttgart

**Brüssel**
- Design Aspects of Electric Traction Drives using the Example of an 800 V System
  - C. Carstensen, C. Neuhaus, M. Heger
  - paragon electrodrive GmbH

**K1 Aachen**
- Display of Range Changes in Electric Trucks: HMI Concept Evaluation in a Virtual Reality Simulator Study
  - A.-L. Köhler
  - Bundesanstalt für Straßenwesen (BAST)

---

Session Chair
Univ.-Prof. Dr.-Ing. Stefan Pischinger
VKA, RWTH Aachen University

Session Chair
Prof. Dr. Christian Beidl
vkm, TU Darmstadt

Session Chair
T.B.A.

Session Chair
Prof. Dr. Jakob Andert
VKA, RWTH Aachen University

Session Chair
Prof. Dr. Verena Nitsch
IAW, RWTH Aachen University
## Technical Presentations Program

**Wednesday, October 6th, 2021**

### Session 2

<table>

</thead>
<tbody>
<tr>
<td>Peter Eilts</td>
<td>Dirk Adamczyk</td>
<td>Prof. Dr. Bernhard Geringer</td>
<td>Prof. Dieter Moormann</td>
<td>Dr. Norbert W. Alt</td>
</tr>
<tr>
<td>TU Braunschweig</td>
<td>ZF Friedrichshafen AG</td>
<td>TU Wien</td>
<td>FSD, RWTH Aachen University</td>
<td>FEV Group GmbH</td>
</tr>
</tbody>
</table>

### New Engine Technologies

**Europa**

- **Weight Reduction and Functional Improvement of Future ICEs with Additive Manufacturing and Composite Materials**

**Berlin**

- **Battery vs. Fuel Cell**
  - M. Baum, W. Bernhart, C.-S. Ernst – Roland Berger GmbH

**Lissabon**

- **Air Management for Fuel Cells: Key for Long-Term Durability**
  - P. Geskes, S. Biba, M. Baumann, M. Berger – MAHLE Filtersysteme GmbH

**Brüssel**

- **Waymo Safety Assurance**
  - T. Victor – Waymo LLC

**K1 Aachen**

- **400 V Powerelectronic for Highest Efficiency Demands**

### Automotive Strategy Concepts II

**Europa**

- **Development of the Second-Generation VC-TURBO, KR15DDT Engine**

**Berlin**

- **Strategies for the Electrification of Commercial Vehicles**
  - C. Foltz, J. Neuhausen, F. Andre, A. Wild – PwC Strategy& (Germany) GmbH

**Lissabon**

- **Fuel Cell Air Compressor Design**
  - J. Klütsch – VKA, RWTH Aachen University

**Brüssel**

- **Positive Risk Balance as a Maxim for a Safety Oriented Development of Automated Driving**
  - N. Kauffmann, F. Fahrenkrog, L. Drees, F. Raisch – BMW Group

**K1 Aachen**

- **Analysis and Active Mitigation of Fatigue in Power Electronic Inverters**
  - C. van der Broeck – FEV Europe GmbH

### Fuel Cells II

**Europa**

- **Research on Swirl Induced Lean Spark Assisted Compression Ignition of Gasoline**

**Berlin**

- **Vehicle Cost Analysis for Road Vehicles until 2050**
  - S. Kraus, J. Reul, T. Grube, D. Stolten – Forschungszentrum Jülich GmbH

**Lissabon**

- **Fuel Cell for Sustainable Mobility – The Compressor as a Key Technology for Efficient and Cost Optimized Systems**
  - S. Schnorpfeil, C. Glahn, E. Hartmann, H. Soetje – SEGULA Technologies GmbH

**Brüssel**

- **Testing for Tactical Safety of Autonomous Vehicles**
  - H.-P. Schöner – IFO-Consulting

**K1 Aachen**

- **DENSOS Novel Development Approach for Power Electronics and its Control**
  - R. Klink, D. Heintges, S. Aleff – DENSOS AUTOMOTIVE Deutschland GmbH

### Verification & Validation of Automated Driving

**Europa**

- **Vehicle Cost Analysis for Road Vehicles until 2050**
  - S. Kraus, J. Reul, T. Grube, D. Stolten – Forschungszentrum Jülich GmbH

**Berlin**

- **Predictive and Heat-managed Operating Strategy for a Fuel Cell Electric Vehicle**
  - M. Pietruck, C. Massonet, D. Backes, L. Eckstein – ika, RWTH Aachen University

**Lissabon**

- **P. Terstappen, P. Fröhlich, C. Zwyssig – Celeroton AG

**Brüssel**

- **A Needle in a Haystack – How to Derive Relevant Scenarios for Testing Automated Driving Systems in Urban Areas**
  - N. Weber – Opel Automobile GmbH

**K1 Aachen**

- **Wide-Bandgap SiC Semiconductors – Advantages and Limitations in EV Drive Applications**
  - M. Schubert – Leadrive Technology/Germany GmbH

### Power Electronics

**Europa**

- **Additive Manufacturing of High-performance Powertrain Components**
  - F. Ickinger, M. Klampfl – Dr. Ing. h. c. F. Porsche AG

**Berlin**

- **Accelerate R&D Transformation: Aligning Engineering Skills to Future Needs**

**Lissabon**

- **Predictive and Heat-managed Operating Strategy for a Fuel Cell Electric Vehicle**
  - M. Pietruck, C. Massonet, D. Backes, L. Eckstein – ika, RWTH Aachen University

**Brüssel**

- **Testing for Tactical Safety of Autonomous Vehicles**
  - H.-P. Schöner – IFO-Consulting

**K1 Aachen**

- **Wide-Bandgap SiC Semiconductors – Advantages and Limitations in EV Drive Applications**
  - M. Schubert – Leadrive Technology/Germany GmbH
# Technical Presentations Program Wednesday, October 6th, 2021 Session 3

**Session Chair**
- Prof. Helmut Eichlseder  
  TU Graz
- Prof. Hans-Christian Reuss  
  IFS, Universität Stuttgart
- Dr. Rupert Niethammer  
  Daimler Truck AG
- Univ.-Prof. Dr.-Ing. Stefan Kowalewski  
  I11, RWTH Aachen University
- Univ.-Prof. Dr.-Ing. Tobias Kuhnimhof  
  isb, RWTH Aachen University

### Technical Presentations Program Wednesday, October 6th, 2021 Session 3

- **PUNCH H2-ICE & Flybrid KERS for Decarbonizing Off-Highway Applications**
  - R. Golisano – PUNCH Torino

- **The Hydrogen Combustion Engine as Zero Impact Emission Powertrain Concept**
  - V. Huth, L. Vinrich, A. Pfortje – FEV Europe GmbH
  - S. Sterlepper, S. Pischinger – VKA, RWTH Aachen University
  - T. Wolff, A. Moreno, E. Georgiadis – Dinex A/S

- **Valve Train System for P0 and P1 Hybrid Powertrains**

- **Design of an Electric Drive Axle for Heavy Distribution Traffic**
  - R. Uerlich, S. Köller, L. Eckstein – ika, RWTH Aachen University
  - C. Westphahl – WZL, RWTH Aachen University

- **GKN’s Highly Efficient Components for Future AWD**

- **Automated Statistical Validation using Big Data**

- **EDAG CityBot Ecosystem: A Holistic Mobility System for the Smart City of Tomorrow**
  - J. Barckmann – EDAG

- **Learning Delta Policies for Automated Driving via Reinforcement Learning**
  - M. Templer, J. Kaste, P. Hochrein, B. Mennenga – Volkswagen AG

- **Highly Accurate Scenario and Reference Data for Automated Driving**
  - L. Vater, R. Krajewski, L. Eckstein – ika, RWTH Aachen University
  - T. Moers, J. Bock – fka GmbH

- **Info Bee at UNICARAgil: Airborne Support for Automated Driving**
  - N. Vogel, D. Moormann – fsd, RWTH Aachen University
  - J. Holstein, N. Siepenkötter – flyXdrive GmbH

- **Scalable Approach for 48 V and E-Drives**
  - M. Uhl, R. Peck, R. Benz, C. Höfl – SEG Automotive Germany GmbH

- **Automated Statistical Validation using Big Data**

- **UrbANT – An Autonomous Delivery Robot for the Last Mile**
  - M. Reske, M. Daher, P. Dautzenberg, T. Lennartz, L. Eckstein – ika, RWTH Aachen University
  - C. Henke – ifu, RWTH Aachen University
Closing Plenary Session in the Europa Hall

16:00  What it Takes to Make Cars More Intelligent
Prof. Dr. Ralf G. Herrtwich
Senior Director Automotive Software, NVIDIA, Berlin

16:20  Mobis, a Reliable Partner to Share the Future Vision of EV
Dr. Byung-Ki Ahn
Senior Vice President Electric Powertrain BU, R&D Division Hyundai MOBIS, Korea

16:40  Plenary Discussion

17:00  Closing Address
Univ.-Prof. Dr.-Ing. Stefan Pischinger
Director, VKA, RWTH Aachen University

17:15  End of Colloquium

Univ.-Prof. Dr.-Ing. Lutz Eckstein
Director, ika, RWTH Aachen University
ZERO CO₂ MOBILITY – CONCEPTS FOR TODAY AND TOMORROW

SAVE THE DATE
5th INTERNATIONAL CONFERENCE ZERO CO₂ MOBILITY
NOVEMBER 16–17, 2021

We support you with our expertise in the development of alternative powertrain concepts

Your engineering partner for:
> Complete and partial electrification of powertrains
> Battery technology and battery management systems
> Hydrogen fuel cells
> Hydrogen internal combustion engines
> CO₂-neutral and regenerative fuels
> Power-to-X
> including fuels based on biomass

Your participation at the 30th Aachen Colloquium

After last year's digital event, this year's colloquium is planned as a face-to-face event at the Eurogress Aachen. We are confident that the regulations will allow an event in Aachen in October 2021. The current developments of the Corona pandemic will be taken into account in the planning and the program items will be adapted accordingly.

This digital program booklet will therefore be continuously updated and supplemented with news. The most recent version is always available on our website.

Participant registration is possible on our website from June 7th, 2021. We recommend an early registration.

The organizing team is happy to answer your questions regarding your participation. We are looking forward to a successful Colloquium!

info@aachen-colloquium.com

Best in Class Solution for Valve Map Spreading

Lowest Energy Consumption

Directional Valve Technology

Customizable
At this year's technical exhibition you have the opportunity to get to know the latest mobility technologies and concepts. International companies present their innovations and are available for direct contact and exchange on site.

Exhibitior List – Ground level

01  DENSO AUTOMOTIVE Deutschland GmbH
02  MAHLE GmbH
03  Faurecia
04  FEV Europe GmbH

Traditional Banquet in Aachen

The traditional banquet on Tuesday evening offers culinary and musical delights in historic buildings of the city of Aachen around the Aachener market. Meet your business partners in a relaxed atmosphere to further deepen the impressions of the day together and use the opportunity to create new contacts.

For your agenda

Tuesday, October, 5th 2021
7.30pm Entrance
8.00pm Start
12th Aachen Acoustics Colloquium
Development and Research in Automotive Acoustics

November 22 – 24, 2021
Parkhotel Quellenhof Aachen, Germany

Topics
- Acoustics of Electric Drives and Hybrid Cars
- Active Sound Design and Active Components
- Drive Train Acoustics (Engine, Gearbox, Drive Shafts)
- Infotainment in the Vehicle
- Multi-Modality – Noise and Vibrations
- Numerical Methods, Simulation, Virtual Reality
- NVH Measurement, System-Analysis, Measurement Technology
- Sound Quality, Trouble-Shooting, Sound Design
- Vehicle Acoustics (Body, Mechatronic Components, Tire Road Noise)

www.aachen-acoustics-colloquium.com
Next year the Aachen Colloquium will take place for the 31st time. You are warmly invited to submit a lecture proposal on one of the main topics. You will find the submission form on our website from December 2021: [www.aachener-kolloquium.de](http://www.aachener-kolloquium.de)

### Important Dates

- **Deadline for abstracts**
  - February 2022
- **Notification of the authors from**
  - April 2022
- **Deadline for submission of the manuscripts for the conference proceedings**
  - July 2022

### Main Topics for 2022

- Alternative Fuels and High Efficiency Combustion Processes
- Automated Driving (Level 3+), Databases & AI
- Battery Systems, Management & Safety
- Vehicle Electrical Systems & 48V Technologies
- Fuel Cells
- Dedicated Hybrid Engines & Transmissions
- Chassis, Vehicle Dynamics & Tire Technology
- Electric Drive Units & Electric Motors
- Energy & Thermal Management
- Driver Assistance & Connected Driving (ADAS)
- HMI & User Experience
- Sustainable Mobility Concepts (incl. Micro Mobility)
- Sustainability, LCA & Balances
- New Vehicles, Architectures & Interior Concepts
- Commercial & Offroad Vehicle Drive Technologies
- Sensors & Perception of Environment in Vehicles and Infrastructure
- Automotive Strategies
- Zero-Impact Emission Concepts
Registration
We recommend an early registration. The terms and conditions of the Aachen Kolloquium GbR are available on the event website:
https://aachener-kolloquium.de/en/terms-and-conditions-gtc.html

Procedure of Registration
1) Registration (only online via www.aachener-kolloquium.de/en)
2) Receive confirmation by e-mail
3) Wait and settle the invoice
4) Registration completion after Receipt of payment

Participation Fee
Participants 1050 € (plus VAT)
University members 525 € (plus VAT)
The participation fee includes access to the lectures, the exhibition and the banquet.

Payment Delays
In accordance with the terms and conditions, the participant fees must be paid by the due date stated on the invoice and at the beginning of the event. Please contact us if you are unable to meet this requirement.

Conference Documents
Licences for single or multiple use of the complete conference proceedings as well as individual papers can only be ordered online via www.aachener-kolloquium.de/en/conference-documents.html

Organizer
Aachener Kolloquium
Fahrzeug- und Motorentechnik GbR
P.O. Box 10 02 11
